

## Anti-Glucocorticoid receptor/GR Rabbit Polyclonal Antibody

Catalog No.	EM42028-01	EM42028-02
Size	50µl	100µl
Species	Human Mouse Rat	<b>Molecular Weight:</b> 80-97KD

**Background:** The glucocorticoid receptor (GR or GCR). The GR is expressed in almost every cell in the body and regulates genes controlling the development, metabolism, and immune response. Because the receptor gene is expressed in several forms, it has many different (pleiotropic) effects in different parts of the body.

**Specificity:** The GR Rabbit Polyclonal antibody detects endogenous GR proteins.

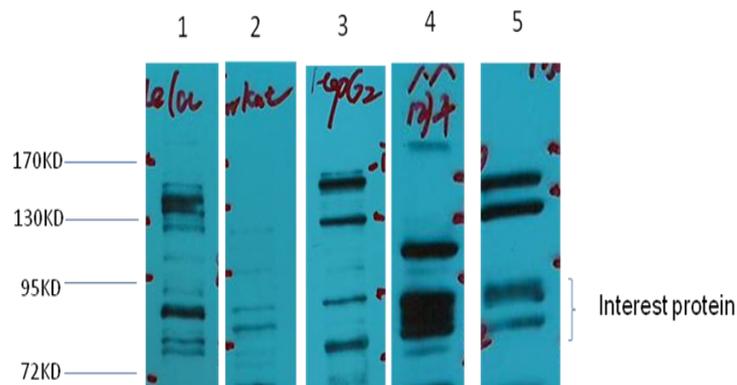

**Application:** WB: 1:1000-3,000

Optimal dilutions/concentrations should be determined by the end user.

**Form:** Liquid ,1mg/ml

**Storage buffer:** PBS, pH 7.4, containing 0.02% sodium azide as Preservative and 50% Glycerol.

**Storage:** Store at -20°C. Do not aliquot the antibody.

Western blot analysis of 1) HeLa, 2) Jurkat, 3) HepG2, 4) Mouse Liver tissue, 5) Rat Brain tissue, with GR Rabbit pAb diluted at 1:2,000.
